

Datasheet **Straight Standing Seam Clamp**

Technical specifications

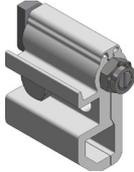

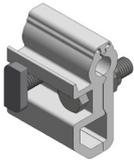

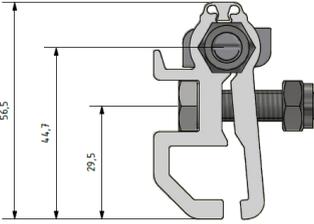

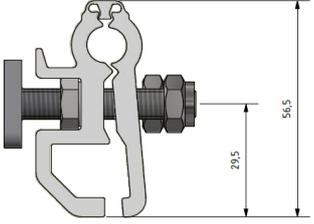

- Aluminium clamp to mount PV-systems safe and quickly on pitched roofs with standing seam.
- Designed for single and double folded straight seams. The clamp is positioned over the folded seam. The folded seam shape needs to fit completely in the coloured space indicated below, in order for the clamp to be properly closed.
- Available for horizontal and vertical mounting of Side++ profiles for Portrait and Landscape orientation of the PV panels.
- Supplied with pre-assembled hammerhead bolt and collar nut for fast installation of the Side++ profiles.
- Perfect combination with Side++ profiles and adjustable panel clamps of the ValkPitched Clamp system.

Material

- The standing seam clamp is made in aluminium.
- Hammerhead bolt and collar nut are made in stainless steel.

Article information

	Strongline Heavy Duty	Strongline Heavy Duty - twist
Material number	727800	727801
Description	Standing seam clamp - horizontal mount	Standing seam clamp - vertical mount
GTIN code	08719632524045	08719632524052
