

**REACH Declaration of Compliance for Van der Valk Solar Systems BV**

Van der Valk Solar Systems BV hereby certifies that, in conformity with the European Directive 1907/2006/CE about the regulation on Registration, Evaluation, Authorisation and Restriction of Chemicals, its products are REACH compliant.

REACH regulation aims to improve the protection of human health and the environment from the risks that can be posed by chemical substances. A substance of very high concern (SVHC) is a chemical substance (or part of a group of chemical substances) for which it has been proposed that the use within the European Union be subject to authorisation under the REACH Regulation.

This document confirms that none of 211 SVHC (ECHA Candidate List, dated January 19th 2021) are present in our solar mounting components, including packing and shipping materials, at levels that surpass the threshold of 0.1% by weight.

Van der Valk Solar Systems BV is reviewing the Candidate List (SVHC) regularly to continuously ensure REACH conformity.

October 9th, 2023

Denis de Vette
Managing Director, Van der Valk Solar Systems BV
